

Career Research

The students can break into groups (no more than 4) to do this assignment or do it on their own. They are to make a poster about a career (For example-police officer, nurse, carpenter, plumber, social worker, etc.)

1. Side one of the poster:
 - Write how you become that career person? NSCC, university, etc.
 - Draw and label some examples of that career person in action. A carpenter in action, police officer, etc.
 - Be creative and watch for spelling

2. Side two of the poster:
 - Write/display some dangers or areas of concern in this particular career
 - Be creative and watch for spelling

This is a rough copy we are doing today. You will work on the good copy/bristol board tomorrow.
